

# **Pennsylvania District Kiwanis International**

## **Five Benefits to Joining Kiwanis**

---

1. You will make new friends and associates that you would not have without Kiwanis. Some of these will go beyond the bounds of your community.
2. You will have fun. Kiwanians like to have fun while doing a lot of good things for our community.
3. There is good fellowship. Kiwanians care about each other.
4. You will be a better-informed citizenry because of the programs and speakers we have each week. Our meetings start on time and end on time. Our speakers range from mayors to professors to social service administrators among others, so you will have better information. Business people – you will have the opportunity to do business with other Kiwanians. You should not join Kiwanis or any service organization for that purpose, but it will happen. Kiwanians like to do business together. You will work together on projects and that will lead to networking.
5. The most important thing you will get out of being a Kiwanian, however, is that you will have an opportunity to see a smile on the face of a child, and know that without you, without your service club, that child would never have had the opportunity to smile!
